About FKCCI

The Federation of Karnataka Chambers of Commerce & Industry (FKCCI) is the apex organization representing the Industry, Trade, and Services sectors in Karnataka. Established in 1916, with the guidance and support of Bharat Ratna Sir M. Visvesvaraya, FKCCI has played a pivotal role in promoting industrial and economic growth in the state.

FKCCI has a membership of over 3,500 direct members comprising large, medium, and small-scale manufacturing, trading, services, and professional organizations across Karnataka. It also includes 30 District Chambers of Commerce and 200 Trade and Industry Associations, representing over 6 lakh MSMEs and 12 lakh traders as indirect members.

FKCCI is the apex state-level body for trade facilitation, entrepreneurship development, and policy advocacy.

About MANTHAN

MANTHAN is an annual Business Plan Presentation Competition and is one of the flagship events of FKCCI. It was instituted in the year 2009, and is now in its 18th Edition. MANTHAN aims at encouraging and empowering entrepreneurship, and business innovation, across young minds, and thus develop and nurture the entrepreneurial spirit.

For the first time in its history, FKCCI is collaborating with the Department of Higher Education, Government of Karnataka, for this edition titled 'Inno-MANTHAN', to further strengthen innovation and entrepreneurship in young minds across the State of Karnataka.

Through this award program, MANTHAN reaches out to all college students (Undergraduate, Graduate, Postgraduate, and Diploma students) from institutions across Karnataka, and in this Edition, there is a special focus on Government colleges in Karnataka.

MoU signing between FKCCI and Government of Karnataka

“Industrialize or perish”

Sir M. Visvesvaraya

About

Department of Collegiate Education

The Department of Collegiate Education (DCE), established in 1960, works to provide quality higher education to all sections of society, with special focus on rural, marginalized and socio-economically weaker students, especially girls. It oversees planning, administration, development, governance and funding of Government First Grade Colleges across Karnataka. The Department aims “to ensure equitable, relevant and futuristic learning in all institutions under its purview”.

At present, it manages 440 Government First Grade Colleges and 421 Aided First Grade Colleges. Guided by renowned educationists like Dr. S. Radhakrishnan and Sri L. V. Modaliar, the Department has expanded from managing 44 colleges to one of the largest higher education networks in India. The Department ensures student welfare by providing scholarships, implementing government schemes, operating the ‘Maithri’ helpline, and offering skill development initiatives such as Kalike Jothe Koushalaya and the Apprenticeship Embedded Degree Program.

About

Department of Technical Education

The Department of Technical Education (DTE) was formed in 1959 to ensure the planned development of technical education in the state in accordance with national and state policies. The department is dedicated to providing need-based, quality technical education and producing skilled human resources for industry, business and the community.

As the highest policy-making body for technical education in Karnataka, DTE is responsible for planning and developing technical education across the state. The Board of Technical Examinations conducts Diploma, Post-Diploma and Tailoring examinations and awards certificates to eligible candidates. Its vision is “to deliver high-quality technical education that meets industry standards and to prepare students with skills required for global competitiveness”.

Dear Students

- Have you found a gap in the market, a new product or service or an innovative solution to an every day problem? Come join our Business Plan Presentation Competition to find out how to convert your ideas into a business.
- In the 4 months journey with us you will learn how make your ideas work.
- Learn how to find your customers, your value proposition and your product market fit and create a business plan.
- You will compete with fellow students and probably receive grant money if you have a good workable idea and prepared a strong business plan.

Why Compete?

- Students get to learn the basics of entrepreneurship through workshops and training programs, which help them to develop and refine the business ideas.
- Networking opportunities with Industry Leaders, Investors including Venture Capitalists, Incubators, and Accelerators.
- Support, including incubation facilitation and funding opportunities through partner entities.
- An industry-wide platform to present your most innovative and impactful business ideas.
- One-on-one mentoring and coaching for all eligible business plans.
- Total cash rewards of INR 1 million.
- Winning business plans will be published in leading journals.

Eligibility Criteria and General Terms

- Participants must be enrolled as students in any Under Graduate, Graduate, Post Graduate course or Diploma in a college / university in Karnataka.
- Each business plan must be accompanied by an attested copy of the college/university photo ID of the participants or a letter from the college/university with an attested photograph of the participants.
- Co-authorship is permitted. Each business plan may have a maximum of four authors, and all authors must be present at the time of presentation.
- Multiple submissions from a single author are acceptable; however, each entry will be treated as a separate submission.
- A participation fee of ₹999 (inclusive of GST) is applicable, along with online application submission through the MANTHAN website. Participation Fee is waived off for the Students of Government Colleges in Karnataka.
- Outstation students shortlisted for Knowledge Workshops or Business Plan Presentations will be eligible for travel allowance.

Complimentary Workshops for All Students Understanding Entrepreneurship

- Evolving ecosystem for strengthening entrepreneurship.
- Evaluating your idea for viability – does it solve a problem, who benefits, and by how much?
- How to convert your idea into a business – what is business, and how different models lead to different outcomes.
- Breaking down your products and services into components to understand their structure.
- Identifying your target market, customers, and market size.
- Creating a business model using modern tools like the Business Model Canvas.
- Talk by past MANTHAN winners on how the program helped them become successful entrepreneurs.

What is a Business Plan and its Components

- Difference between an Elevator Pitch, Pitch Deck, and Business Plan
- Marketing Plan - building revenue streams and projections
- Operations Plan - technology, materials, production, and staffing plans
- Financial Plan - capital investment, working capital, costing, pricing of products/services, and funding plan
- Business Validation - technical readiness, manufacturing readiness, and market readiness

You as an Entrepreneur

- Entrepreneurial qualities, mindset, and attitude
- Leadership, decision-making, and risk-taking skills
- Team building, communication skills, and business strategy
- Mentorship - understanding mentoring and getting the best out of your mentors (MANTHAN mentors and long-term mentors)
